

# RECEPTION

Spring Term 2017

## Communication & Language

We have continued to develop our listening and attention skills, responding to simple instructions, joining in with stories and rhymes and extending our vocabulary. We have been developing our imagination through role-play so that we may begin to introduce a storyline or narrative into our play.

Great teamwork!

## Physical Development

We have been learning about healthy eating and all the different ways we can keep healthy. Our letter formation and fine motor skills are really improving. We have been enjoying lots of physical activities.

## Personal Social & Emotional Development

We have been thinking about things we are good at and things we would like to get better at and setting ourselves goals which are displayed on our class learning targets display.

## Literacy

We have been working hard to learn to recognise and write our letter sounds and can now write simple sentences remembering our finger spaces. We have been practising our reading and enjoyed a range of stories and texts.

## Maths

We can now record our addition and take away problems and have been learning to double a number, count in twos and have looked at different coins to find out their value.

## Understanding the World

We have been very busy this term finding out about People Who Help Us. With visits from the police, firefighters and dental nurses we have found out all about the different jobs that they do.

We have also been finding out how Chinese New Year is celebrated and made our own dragon then worked cooperatively as a team to create a dragon dance.

In **Religious Education** we have been looking at aspects of the natural world and finding out about the story of Creation as well as listening and responding to a range of faith stories.

During Design & Technology week we have been developing our **Expressive Art & Design** skills by designing and making our own spoon puppets. We have even written adventures for our spoon puppet characters
