

Sports premium money

Fitness trail: The school has installed a fitness trail, by the side of the playground. This includes a selection of gym style training equipment suitable for children. This can be used during break times and PE lessons. A rota system has been developed due to its popularity. Each class was taken through and initiation on how to use it properly and safely by the school PE teacher.

Danceacise Dance mats and lesson tutorials: The purchase of 30 'Danceacise' dance mats. These will provide a fantastic resource to help teach dance and fitness. This resource will be used in class PE sessions, lunchtime and afterschool clubs and even during wet lunch and break times.

There are at least **80** more children taking part in organised lunchtime activities ran by specialist coaches, than there were prior to the sports premium funding.

FSM and Pupil premium data

Boys

Girls

Free school meals (FSM)

pupil premiums (PP)

The school hired in 2012 a PE specialist, whom is on site from Monday to Wednesday. He teaches PE from reception through to year 6 and is able to communicate with class teachers regarding planning, monitoring, assessing and pupils/teacher's needs. He is also the schools PE Co-ordinator and therefore also organises the schools fixtures and events.

We introduced the Change4Life club solely for children that we feel will benefit most from taking part in some extracurricular activity. This club helps to promote healthy living and is full of fun activities. These are mainly FSM and PP children who don't access or have access to the usual afterschool clubs or who would greatly benefit in taking part in some physical activity.

The Gymnastics club has been aimed at years 1 and 2 in order to give them the opportunity in taking part in an after school club. This is to not only help with developing skills that will benefit them in all areas of PE and sport, but to also start an appreciation for healthy living and to develop an appetite for taking part in further clubs and sports throughout their school lives.

We have worked closely with Cheshunt Secondary school and used their facilities and expertise. We took our year 4 and six classes to use the swimming pool in 2015, their sports leaders sometimes referee our football matches, we have used their gym, sports leaders and equipment. The PE teacher has also come over to our school to teach PE alongside members of staff. This was so that both the children and teachers could benefit from their expertise.

- 2015 saw our links with Cheshunt Secondary school grow as we were once again able to use their sports facilities and staff.

We also work with St Marys and Goffs secondary schools and take part in various sporting events that they organise.

We will be completing a new survey to identify how many children take part in clubs after school and those who don't. It will identify how many hours a day/week of activity the children take part in.

Date: _____ **School participation and activity survey** **Year group:** _____

Who takes part in a club outside of school? (Initials)
